Ignition custom forge

Select a membership level. Every pledge helps right? Thank you for your support. Previous Rewards. About CustomsForge. Hey everyone. I'm Mark, the creator of CustomsForge. My goal is to make CustomsForge as fast and as accessible as possible. I created CustomsForge in around 6 AM in the morning as an effort and a dream to own a website dedicated to making custom content for Rocksmith. At Nov we were forced to upgrade to the latest version of our website. Our journey is not quite there yet and we're already working on version 5 of Ignition. This includes another rewrite of the website, this time in React. We have more devs so our plan is to rewrite it within 6 months instead of 2 years. This website is my passion and your support will help me continue working on it. We will continue to evolve Ignition4 and finally upgrade our website to Ignition5. I am excited for the future. Any amount helps and allows Unleashed2k to help make CustomsForge better. Become a patron to Recent posts by CustomsForge. How it works. Add a payment method. Patreon logo. Language: English. Currency: USD. What is Patreon? Can I cancel my pledge any time? Learn More. With fast, even, reliable heat, a Mighty Forge is the best choice for your forging needs! Two burners, individually controlled with stainless steel burner tips Main body is made with premium 12 gauge hot rolled steel The inside firebox dimensions for The Mighty are A one piece poured floor made up of a light weight 80 compound Capable of forge welding in minutes Large 2" insulated front door Weight: 60 lbs Also comes with a 10' hose, Self Regulating Lbs propane regulator and gauge pictured Natural gas available special order. Two burner, individually controlled with stainless steel burner tip Main body is made with premium 12 gauge hot rolled steel with two 2" insulated doors Inside fire box dimension is 5. For environments where safeties are required such as schools, universities, public utility shops, or where hard plumbed gas is necessary. Three burner, three controls with push button ignition and stainless steel burner tips Excellent for production for knife and sword making The main body is made up 12 gauge hot rolled steel With two, 2 inch thick doors one having a 3" x 1. Three burner, three controls with push button ignition and stainless steel burner tips Excellent for production of draft shoes. The Mighty. Mighty Knife. Mighty Warrior. Mighty Draft Pro.
