Bought a Sharp stereo system at a garage sale to use in my workshop. The radio wouldn't work in my basement so I downloaded a manual to see how to get better reception. The unit has a proprietary socket on the back for the antenna. I didn't think I would find one, but putting the model number of the antenna into a search engine brought me to Amazon and in a couple of days I had one. Now the radio gets great reception. Believe it came with a plastic pluglet for attaching to radio device. I had to remove the plug and strip the wires to connect to my CCrane radio. Reception improved from what it was, but not enought. Since brought in a larger loop antenna. I have an older Sharp Stereo. The Antenna became lost during moving. I received this product in a extremely timely manner. It is Exactly like the one I lost. I plugged it in and works great. I've Have had no problems with it. One person found this helpful. After finding a nice stereo at a second-hand store I was disappointed at the lack of antenna. These units have a special plug so it was hard to find one that fit. This was it. And it's not expensive. This antenna also fits the BA stereo system. It is perfect for that system as well. I purchased my sharp mini system from a garage sale but it didn't have the antenna. Lucky for me I found the replacement antenna on amazon. Now I get all the stations I never got before. I rated it 5 stars, well worth the money. See all reviews. There's a problem loading this menu right now. Learn more about Amazon Prime. Get free delivery with Amazon Prime. Back to top. Work's good but should come with the system????? Great seller and delivered as promised. I needed this to make my stereo work. I recommend this seller to others. One person found this helpful. Shipped new in bag. Pleased with product as it is exactly what I was expecting. I couldn't use my stereo otherwise Missing the small piece in the middle so the FM was in and out. See all reviews. Great replacement product! Whether you are a collector of stereo systems, someone looking for a replacement part, or even a repair guy look no farther. Since installing the replacement antenna I have not seen any issues with it compared to the original antenna. The cost of the antenna is justified by the quality of the antenna when you purchase it. Then with the quality of the reception of this antenna it is the same as the original antenna so there is no loss so you can still listen to the radio as clear as it was with the original antenna. Customer Service: The quality of customer service for Ancable was expedient and informative. Though their information online did not list the exact model of Sharp stereo that I had I was given the answer that it would work after inquiring about the issue. If you should have any questions about the product or reservations on whether it would be a suitable replacement for your stereo system do not hesitate to ask their customer service. Ancable is a company that supplies quality stereo replacement parts that are hard to find at an affordable price. I have a lot of nice cassettes I continue to enjoy and my wife and I like to listen to a few radio stations while working in the kitchen. The combo unit I purchased did not have the associated antenna so I purchased this Ancable hoping it would do the trick - and it does. There's not a lot to say about this. It's a tuner antenna. That's why I gave it 5 stars. I wasn't expecting much. I was just hoping it would pull in some relatively local stations without having to find "just the right spot". It seems to work pretty much anywhere I put it, and it gets a strong signal. I am super satisfied with this antenna. I was hoping a new antenna would get me better and more clear reception. It works. This antenna is small that I expected it worked so great, but my cats chewed the cord. Therefore, I bought another! New one also works well! This antenna enabled me to use a "Trashed" Sony player. Works great. Bought this and now I can drown out wifes nagging again. Gave cat a cold cranking amp battery and some cables to chew on now. One person found this helpful. My tuner sounds fab surprisingly. I didn't have to fudge around looking for a good spot to place it at. See all reviews. Top reviews from other countries. As described would help if came with short instructions about setting up not complicated But would be helpful. Report abuse. Fit the sterio perfect, can't complain at all. Speedy delivery plugged in work great. Works perfectly. More items to explore. Pages with related products.
